

REMARKS

Claim Amendments

Claim 37 is allowed. There are no claim amendments. Prosecution on the merits is closed in accordance with Ex parte Quayle, 1935 C.D. 11, 435 O.G. 213.

Amendments to the Specification

The Office Action indicates that the application is in condition for allowance except for the informality that the drawings contain tables. The office action further indicates that it would be remedial to amend the specification to include the information contained within the drawings as tables within the specification and to amend the specification to refer to the tables rather than the figures.

Accordingly, Applicant has amended the specification to include the information contained within the drawings as tables within the specification and has amended the specification to refer to the tables rather than the figures.

Conclusion

Applicant submits that the application is now in condition for allowance and respectfully requests early favorable action by the Examiner. If the Examiner believes that a telephone conversation with Applicant's attorney's/agent would expedite prosecution of this application, the Examiner is cordially invited to call the undersigned attorney/agent of record.

Respectfully submitted,

Date: October 9, 2007
